#### Large Gardens

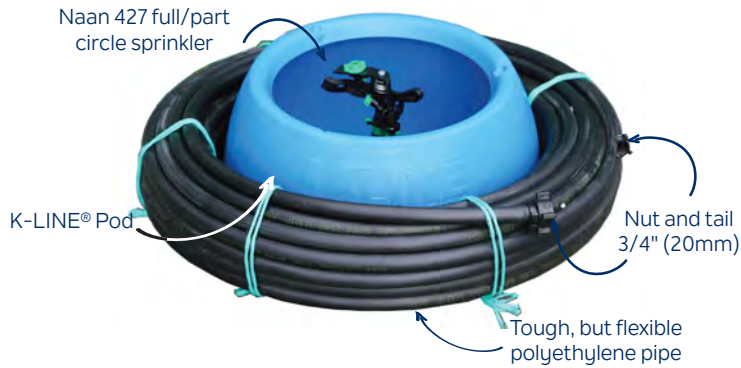

#### Subdivisions

# K-LINE® 1 Pod DIY Pack and K-LINE® 1 Pod DIY

## 1 Pod DIY Pack - KL1PODPACK

### Kit includes:-

- 1 x Blue K-LINE® Pod
- 16mm x 35 metres lateral tube
- 1 x Naan 427 sprinkler

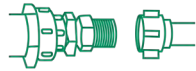

### Installation

Connect one end of the pipe to the tap, ensuring it is screwed in tightly.

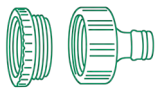

Uncoil pipe as shown.

Connect the other end to the pod, ensuring it is screwed in tightly.

### Quick lock tap adaptor

As an alternative for applications where high pressure exists, consider using garden hose and female x quick lock tap adaptor.

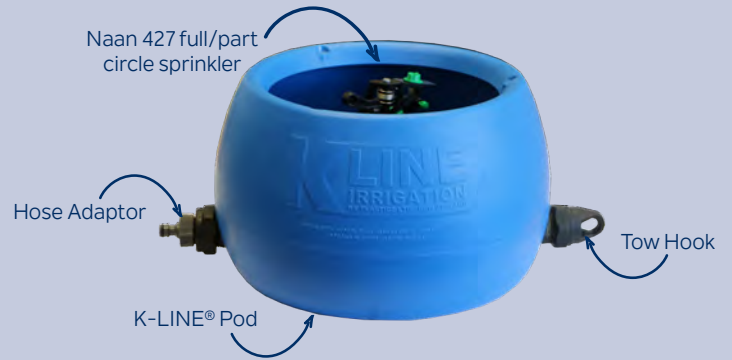

### Features

- Tough K-LINE® pod
- Adjustable full or part circle sprinkler
- Spray coverage 23-26 metres diameter (11.5m - 13m radius)
- Easy installation and operation
- Low maintenance
- Low-pressure for water efficiency

### Applications

- Ideal for the irrigation of lawn and borders
- Suitable for unusual shaped areas
- Uneven landscapes
- Lifestyle blocks and family homes.
- Sprinkler is adjustable to variable distances.

## 1 Pod DIY - KL1POD

Attach the hose adaptor

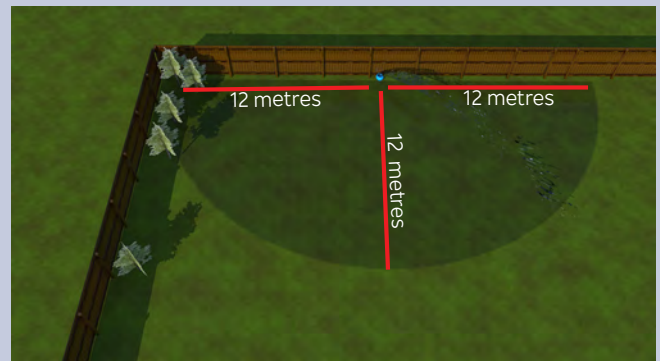

Connect K-LINE® pod to your garden hose

Connect hose to water source

### Examples of use

Part Circle

Full Circle

# Sprinkler Information

## Sprinkler - 1/2" Male Naan 427 :-

- High impact, heavy duty plastic materials, resistance to corrosion, chemicals and UV
- High angle sprinkler ensures water gets around surrounding plants
- Integrated stream-straightening vane for maximum range
- 5° - 360° (full or part circle) application
- 3.2mm nozzle
- Spray coverage 23-26 metre diameter

## Adjusting your Naan427 Sprinkler

Adjust spray

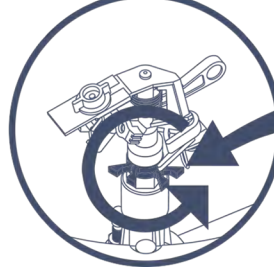

Wind the spray adjuster out

Deflect spray

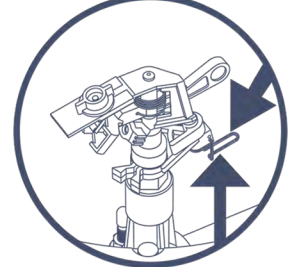

Deflect the spray if required.

Part circle

Set part circle coverage

Full circle

Or lift the retainer for full circle.

## Performance Table

	Pressure (bar)	Flow (l/h)	Radius (m)
3.2mm Green Nozzle	2.0	570	11
	3.0	700	12
	4.0	810	13

## The Perfect Irrigation System for ...
